Street

Postcode Town

hereinafter referred to as

"storage customer"

hereinafter referred to singly as "contract party"

and together "contract parties"

## § 1 Subject matter of contract

- (1) As a result of the purchased storage lot, the storage customer is entitled to use the working gas capacity made available to him and inject and withdraw gas volumes.
- (2) bayernugs shall be obliged to provide the storage customer with working gas capacity as well as injection and withdrawal capacities as acquired by the customer within the framework of a storage lot.
- (3) A storage lot consists of a fixed ratio of
  - a maximum injection rate of X MWh/h
  - a maximum withdrawal rate of X MWh/h
  - a maximum working gas capacity of X MWApart from that, the product description for the auction shall apply.
- (4) Number of contracted lots: \_\_\_\_\_.

## § 2 Storage fees

The storage customer undertakes to pay the fee agreed upon with bayernugs to the amount of:

Lot 1: \_\_\_\_\_ €/lot

Lot 2: \_\_\_\_\_ €/lot

Lot...

## § 3 Elements of the storage contract

The General Conditions for Storage Access of Bayerngas GmbH (GCSA) including Annexes 1 and 2 in their respective current version form an integral part of this contract.

The same applies for the prequalification documents and specifications of the storage customer.

## § 4 Contract period

The contract comes into effect on XX.XX.20XX at 6AM and ends automatically on XX.XX.20XX at 6AM, unless previously cancelled in accordance with the General Conditions for Storage Access (GCSA).

## § 5 Final provisions

Two copies of this contract, including its annexes, are drawn up, one of which is held by Bayerngas and the other by the storage customer.
